

## Environment, Health, Safety, Security (EHSS) Policy

It is our policy to protect the health, safety, environment and security of our employees, contractors, neighbours and stakeholders and to provide quality services that meet our customer's expectations.

We believe that all injuries, illnesses and environmental incidents can be prevented. No job will be deemed so important or urgent that actions cannot be taken to accomplish the job in a safe environmentally acceptable manner.

We will comply with applicable legal regulation and standards for Environment, Health and Safety & Security (EHSS) with integrity and apply practical means to prevent pollution, reduce waste, manage risk of operation and conserve natural resources.

We will continually improve our performance and implement effective development programs to enhance the competence and awareness of our employees and contractors, to meet our defined objectives and targets. We value our commitment to transparency with our stakeholders.

MANAMBUR NAZIR AHAMAD  
Managing Director
